

Conflict Minerals Statement

FEDD is committed to sustainable supply chains and acting as a trustworthy partner for our customers and suppliers. In that extent we are committed to warn our suppliers on the “Conflict Minerals” issue so that they do not source their Tantalum (TA), Tin (Sn), Gold (Au), Tungsten (W) from sources that belong to conflict areas, primarily, in the Democratic Republic of Congo.

All of our suppliers are world-class standard and reputations and we trust their commitment to their customers including FEDD to reach DRC Conflict-free status of the products they sell to us in accordance with the AVL (Authorized Vendor List) given by our own customers.

To whom it may concern.

Sincerely,

Name :	Cedric DELAGE	Cecile BLANCOT
